Activity IDs Extractor, AIDE

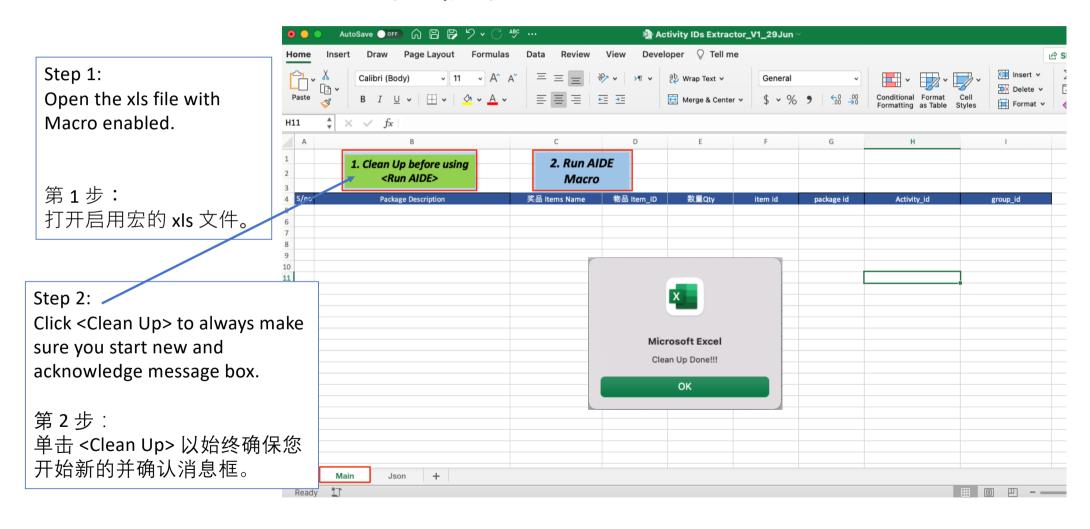

Dated: 29 Jun 2022

What is this used for? 这是干什么用的?

- After an event published, there is a need to "extract" the needed ids from the created Json for easy reference.
- 事件发布后,需要从创建的 Json 中"提取"所需的 id 以便于参考。

- This tool will allow this and at the same time save time and eliminate human error.
- 该工具将允许这样做,同时节省时间并消除人为错误。

How to use it?如何使用它?
